Zbl 446.05001

(Klarner, D.; Proskurowski, A.; Erdős, Paul; Taylor, H.; Chinn, P.; Kelly, P.J.; Babai, Laszlo; Kaschube, P.; Kainen, P.)

Problem session. (In English)

Combinatorics, graph theory and computing, Proc. West Coast Conf., Arcata/Calif. 1979, 319 (1980).

[For the entire collection see Zbl 435.00002.]

These notes are intended to be an accurate and complete description of the problems which were posed at the final session of the conference.

Classification:

05-02 Research monographs (combinatorics)

05Cxx Graph theory

05Axx Classical combinatorial problems

00A07 Problem books

Keywords:

cycle; digraph; locked subsequence; perfect square; chromatic number; triangulation; edge labelling; rational formal power series; content sequence of a graph; 1-factors; sequences; trees; path numbers; functions on graphs
